Getting Started

Enrollment

1. To enroll in Bill Pay, click Business Bill Pay in the transactions menu. The system will display all your eligible accounts that can be designated as “from” accounts in Business Bill Pay.

2. Choose at least one of these accounts and click Enroll in Bill Pay.

![Figure 1](image1)

Note: If enrollment is successful, you will see a confirmation screen.

![Figure 2](image2)
Security Key

Next, you will be taken to a screen where you must enter a security key. This is a code (not a password) that briefly displays each time you log in, so you know you are accessing your authentic Bill Pay site.

Choose a combination of up to 10 letters and numbers that will be familiar to you.

![Security Key Image]

How do you know it’s us?

⚠️ Your personalized security key reassures you that you are logging into the authentic Bill Pay website.

Shortcuts

Take a shortcut, if any are available.

Bill Pay monitors your payment activity and when it detects payments that you regularly make to a particular payee, it may offer you a shortcut, which is an expedited way for you to make the next payment. The system offers a shortcut to help you make a regular payment by anticipating the payment and automatically filling in certain information.

Note: A shortcut only creates a single payment, not a recurring one. A recurring payment is processed automatically after it is set up, but a shortcut must be manually chosen each time you want to make a payment.

Method of Payment As Reflected on Statement

It is the standard policy for Bill Pay to deliver payment in as timely a fashion as possible. As a result, there may be situations where payment will be fulfilled via a virtual card or other method. Depending on your payee’s processing system, your statement may indicate that an electronic payment that you made through bill pay was paid via card.

Paying a Company versus Paying an Individual

Once you have set up a company or person as payee, the process to set up a payment to one or the other does not differ except in some of the options you will be presented with.

Tax Payment

Bill Pay gives you the ability to send tax payments directly to the IRS using a pass-through option that takes you to the Electronic Federal Tax Payment System (EFTPS) website. Visit eftps.gov/eftps/ for instructions.

Schedule a tax payment

Send electronic tax payments directly to the IRS through EFTPS.

Tax website

By clicking "Go there now," you will be taken to a website that is an Official United States Government System and is not affiliated with Boeing Employees Credit Union. You can click on the back button now to return to the previous page.

The Electronic Federal Tax Payment System (EFTPS) is a federal government program that provides a means for electronic tax payments. EFTPS is easy to use, it's accurate, and it saves taxpayers the inconvenience of last minute trips to the bank with checks and coupons. EFTPS has become a preferred method for making Federal Tax payments. There are more than 3.6 million taxpayers enrolled in EFTPS today.

EFTPS is an independent website. If you haven't completed your tax transaction within 15 minutes, your bill pay session will time out for security purposes. A message will display at five minutes remaining and one minute remaining to warn you of the upcoming session time out.

eBills

Certain payees in the database are eligible for eBill. This feature allows users to receive current billing information for eligible payees. This information includes but is not limited to the minimum amount due and due date. Through the eBill feature, users can file their bill and set up automatic payments.

Set Up eBills

There are two ways to determine if a payee offers eBill:

- At the top right of the Payment screen, available eBills will be listed in the eBill Connect area.
- There will be a Set up eBill button in the Payee details screen.

Import Payees

If you are currently using another bill pay system in which you have entered payees, it may be possible to import these payees into Business Bill Pay. You must be able to export payee information from your current system as a CSV file.

1. Click the CSV file button and follow the steps to properly compile payee information into a CSV file that can be imported.

   **How to import a CSV file**

   To import your payees into Business Bill Pay, you begin by creating a CSV file in the format shown below. Instructions on how to format the columns are provided below.

   **Step 1: Prepare your file**
   Your CSV file should be in the following column order:
   1. Company name*
   2. Address 1
   3. Address 2
   4. City
   5. State
   6. ZIP code (e.g. 55555 or 555554444)
   7. Phone (e.g. 5553334444)
   8. Account number*
   9. First name*
   10. Middle name
   11. Last name*

   * Minimum required fields: Company name, Account number, First name and Last name.

   **Note:** The file should contain as much information as you have available, as you may be asked to enter additional information when verifying the payee.

   **Please ensure that the Phone number and ZIP code contain no spaces or special characters.**

   **For the import process, the column headers are not necessary.**

2. Once you have properly formatted your CSV file, you can upload it.

3. Once payee information is uploaded, verify and edit as necessary.
Manage Payees

The Manage payees screen allows you to view all your payees, just companies, or just individuals.

**FIGURE 61**

1. From the top of the screen, you can sort displayed results in a variety of ways and can also search for a payee. Use the Print icon to print the displayed results.

2. From the displayed list of payees, you can activate payees that still require activation, create a payment, edit or delete the payee.

**Note:** Using the Pay icon to set up a payment with a payee will result in a one-time payment. To set up a recurring payment, use the Recurring Payment option in the Payments drop-down menu.

Manage Categories

You have the option to assign each payee to a category.
1. The Manage categories screen shows a list of your payees. (You can use the Filter categories drop-down to filter this list by a specific category.)

   **Figure 62**

2. Use the list to quickly assign payees to the desired categories.

How to use the Calendar

1. Click a processed payment to bring up a brief screen. Click Details to see more about the payment.

   ![Processed]

   - Payee: Lease
   - Amount: $1,200.00
   - Total: $1,200.00

2. The Details button will take you to the transaction history screen. The View options pop-up will be automatically filled to include the selected payment among the displayed results.

3. Click a scheduled payment and then click the Details button for more about the scheduled payment.
Note: The payment you selected in the Calendar may not be the first payment displayed in the search results.

4. The total of all payments for the month is displayed at the bottom of the Calendar. Click the All details button to get more information.

Manage Bill Pay Accounts

The Manage Bill pay accounts screen displays a list of all from accounts you have enabled.

From here, you can specify the default account, view information about the accounts, and add, edit or delete accounts.

Note: The only edits you can make are changing the nickname you give to an account and specifying a starting check number.
Add New Accounts

1. Click the + Add new account button.
2. Fill in the form as appropriate.
3. The new account will be added to your account list with a Status of Pending.

**FIGURE 76**

4. When you add a new account, site administrators will get notification and will verify that you have access to this account. Once they have enabled this account to be used as a “from” account, they will change the Status to Approved.

**e-Notifications**

You can define various types of notifications to help you track Bill Pay activity and set reminders for future payments.

Notifications can be sent via email or text or both. You can edit this information at the top of the screen.

**FIGURE 77**

**Event Notifications**

You can set up customized notifications, so you know when an event occurs through your Bill Pay account.
Logout Notifications
You can receive a customized email summary of your Bill Pay activities at the end of each session.

Please select which items you would like to receive each time you log out.
Send a list of the following:

Scheduled transactions
Added payees
Deleted payees
Skipped and stopped transactions
Added admin users

Recurring Notifications
You can customize how often you receive these email notifications that provide a list of Bill Pay information.

Reminders
You can schedule reminders, so you are notified when you need to schedule a payment or transfer funds.
1. Click the + Add reminder button.
2. Fill in the reminder fields as appropriate and click Submit.
3. Once you have created your reminder, you can choose to stop it or add it to the Calendar.

Manage Users

On this screen, you will be able to manage the users you have enabled to access Bill Pay on behalf of your business. You can view information about each user, and customize each user’s permissions and functionalities within the system.

Multiuser Interface

Business Bill Pay is a multiuser interface.
- In Business Bill Pay, a primary user is given full control over the system (within the limits set by BECU), can create any number of sub-users, and can define various permission levels for these sub-users, including:
  - The right to schedule payments to all or specific payees
  - The right to approve payments created by other users
  - Payment caps for specific payees
  - The right to make tax payments
  - View payment history
  - Manage payees, sub-users, and accounts
  - Review reports and company information
- In practice, the primary user is the business itself.

Editing User Information

The user list shows the name and date of last login for each user.
The options available to you for viewing and editing users will depend upon the permissions that have been granted to you.

The User ID field is blank because it is a system-generated user identifier and cannot be edited.

1. Click the Edit button to change basic information about a user.
Editing User Permissions

1. Click the Permissions icon for a user to bring up the edit screen. Here, you will see how permissions are currently set and you can click through a series of tabs to edit this setup. The tabs you see may depend on the permissions set for you.

![User Information]

To edit permissions: Use the tabs below to add or remove permissions. The current permissions will be pre selected.

![Current Permissions]

Each tab gives you several settings you can toggle on and off, often with explanatory text.
**Payments Tab**

- Schedule bill payments
  - Schedule to all bill payees
  - Schedule to specific bill payees

- Establish payment caps
  Payment caps allow you to set a specific amount that may not exceed when scheduling payments to particular payees.

- Tax payments

- Designate pay from accounts

- Payment history
  - Admin user list

**Figure 83**

**Payees Tab**

- Manage payees
  - High risk permission warning: To protect against fraud, we highly recommend you restrict the combined permissions of Add a Payee and Schedule a Payment to owners, managers, or highly-trusted individuals such as your accountant.

</tbody>
</table>

**Note:** Certain permissions, such as the ability to approve transactions and to manage other users' permissions, gives powerful authority to a user. The administrative user should take care when extending these permissions to other users.
Reports

Business Bill Pay can generate a variety of reports for tracking how payments are scheduled, processed, and changed, and how and when payees are added.

**FIGURE 88**

1. Use the tabs and options to create the report with the criteria and date range you wish, then click the Create report button to see the results at the bottom of the screen.

2. Use the Print and Export buttons as needed to pull the information from the system. Exported results will be saved as a CSV file.

**Help Icon**

1. Click the Help icon at the top right of the screen to bring up a series of graphical job aids, showing how to perform the most common Bill Pay tasks.
Secure Messaging

The Secure message center allows you to receive broadcast messages from BECU and individual messages from iPay Solutions for Payment Inquiries. These remain in the Secure message center for 180 days, or until the user deletes them.
